UPGRADE THE WAY YOU PLAY

QUICK, EASY, AND SECURE ACCESS TO YOUR CASH

The speedy and ultra secure enrollment process approves transaction limits specific to YOU and is re-assessed every 6 days. Available funds can be accessed all at once or spread out over multiple transactions. Players with a good track record may see an increase in their available spending limits over time.

Funds aren't removed for 48 hours. If the transaction happens Thursday or Friday, funds aren't removed until the following Monday, giving Players extended playing power.

Enroll at any one of the convenient locations in a simple step-by-step process. All you need is a valid driver's license, bank account and routing numbers. You'll receive your personalized transaction limit via text message that same day. With 24-hour customer support and up to \$30,000 in player allowances, UltraCash is giving players the gaming freedom they deserve.
